

# HARSHIT KUSHWAHA

+91-7409064489 | [find.harshatkushwaha@gmail.com](mailto:find.harshatkushwaha@gmail.com) | [in](#) harshitt13 | [G](#) hasrhatt13

37 Gokul Nagar, Shahaganj, Bodla Road, Agra, Uttar Pradesh, India - 282010

## EXPERIENCE

### Outlier

AI Trainer – Freelance - Remote

Tools: Python, Prompt Engineering, AI Training

November 2024 - Present

Bhopal, India

### CodSoft

Machine Learning Intern – Internship - Remote

Tools: Python, Scikit-learn, Keras, Pytorch

November 2024 – December 2024

Bhopal, India

## EDUCATION

### - Vellore Institute of Technology, Bhopal

B. Tech in Computer Science Engineering (Core)

2027

CGPA- 8.09

### - Vijaya International School, Agra

Senior Secondary Examination

2023

Grade: 85%

### - Vijaya International School, Agra

Higher Secondary Examination

2021

Grade: 94.2%

## PROJECTS

### - Sentiment Analysis Chatbot

Tools: Python, TextBlob, TermColor, Natural Language Processing, VS Code.

- Developed a console-based chatbot that analyses user sentiments using natural language processing techniques.
- Sentiment categorization into “Very Positive”, “Positive”, “Neutral”, “Negative”, and “Very Negative”.

### - Stock Market Prediction Using ML

Tools: Python, Pytorch, Matplotlib, Scikit-learn, yfinance, Joblib, Tensorflow VS Code.

- Designed a stock price prediction model using Linear Regression and LSTM Neural Networks, integrating historical data from Yahoo Finance for predictive analysis.
- Automated data pipelines for fetching, preprocessing, and visualizing stock data using yfinance, pandas, and matplotlib.
- Evaluated model performance with metrics like MSE, RMSE, and R<sup>2</sup> Score, highlighting the comparative strengths of each approach.

### - Health Monitoring and Alert System with Kestra

Tools: Python, C++, Scikit-Learn, Arduino, Twilio, VS Code.

- This workflow monitors heart rate and glucose levels from input data and sends critical alerts via SMS using Twilio when the values exceed defined thresholds.
- Using IoT devices (e.g., Arduino) for measuring heart rate and glucose level.

## SKILLS

- Programming Languages:** Python, C/C++
- Frameworks:** TensorFlow, PyTorch, Scikit-learn, Keras, OpenCV, Seaborn
- Database Systems:** MySQL
- Tools & Technologies:** WSL, Arduino Uno

## CERTIFICATIONS

- CS50's Introduction to Programming with Python
- ChatGPT Prompt Engineering for Developers
- Linux Tutorial
- Python Essentials
- Fundamentals of AI & ML

Harvard University

DeepLearning.AI

Great Learning Academy

VITyarthi

VITyarthi

## ACHIEVEMENTS

- Achieved a top 1% ranking in MLH Global Hack Week: Cloud Week 2024.

## EXTRACURRICULARS

### Member

GeeksforGeeks | VIT Bhopal

August 2024

Bhopal, India

### Campus Ambassador

Tryst 24 | IITD

March 2024

Bhopal, India
