37 Gokul Nagar, Shahaganj, Bodla Road, Agra, Uttar Pradesh, India - 282010

EXPERIENCE

Software Development Club

Machine Learning – Core Member – Full-time

November 2024 – Present

Bhopal, India

Outlier

AI Trainer – Freelance - Remote

November 2024 - Present

Bhopal, India

Tools: Python, Prompt Engineering, AI Training

EDUCATION

- Vellore Institute of Technology, Bhopal

B. Tech in Computer Science Engineering (Core)

2027

CGPA- 8.

- Vijaya International School, Agra

Senior Secondary Examination

2023

Grade: 85%

- Vijaya International School, Agra

Higher Secondary Examination

2021

Grade: 94.2%

PROJECTS

- MeowScript - A Purrfectly Simple Programming Language

Tools: Javascript, HTML, CSS, React, Node.js, Vercel, VS Code.

- Developed a console-based chatbot that analyses user sentiments using natural language processing techniques.
- Sentiment categorisation into “Very Positive”, “Positive”, “Neutral”, “Negative”, and “Very Negative”.

- Sentiment Analysis Chatbot

Tools: Python, TextBlob, TermColor, Natural Language Processing, VS Code.

- Developed a console-based chatbot that analyses user sentiments using natural language processing techniques.
- Sentiment categorisation into “Very Positive”, “Positive”, “Neutral”, “Negative”, and “Very Negative”.

- Stock Market Prediction Using ML

Tools: Python, Pytorch, Matplotlib, Scikit-learn, yfinance, Joblib, Tensorflow VS Code.

- Designed a stock price prediction model using Linear Regression and LSTM Neural Networks, integrating historical data from Yahoo Finance for predictive analysis.
- Automated data pipelines for fetching, preprocessing, and visualising stock data using yfinance, pandas, and matplotlib.
- Evaluated model performance with metrics like MSE, RMSE, and R² Score, highlighting the comparative strengths of each approach.

- Health Monitoring and Alert System with Kestra

Tools: Python, C++, Scikit-Learn, Arduino, Twilio, VS Code.

- This workflow monitors heart rate and glucose levels from input data and sends critical alerts via SMS using Twilio when the values exceed defined thresholds.
- IoT devices are used to measure heart rate and glucose level.

SKILLS

- Programming Languages:** Python, Javascript, Typescript, HTML, CSS, C/C++
- Frameworks:** TensorFlow, PyTorch, Scikit-learn, Keras, OpenCV, Seaborn, React, Node.js, Next.js
- Database Systems:** MySQL
- Tools & Technologies:** WSL, Development Board

CERTIFICATIONS

- CS50's Introduction to Programming with Python
- ChatGPT Prompt Engineering for Developers
- Linux Tutorial
- Python Essentials
- Fundamentals of AI & ML

Harvard University

DeepLearning.AI

Great Learning Academy

VITyarthi

VITyarthi

ACHIEVEMENTS

- Achieved a top 1% ranking in MLH Global Hack Week: Cloud Week 2024.
